James Loudspeaker designs and manufactures innovative solutions to provide the finest outdoor entertainment experience. The Omni129AT4 loudspeaker by James makes a great addition to the All-Terrain Series by offering 360-degrees of full range, crystal clear music. Ideal for any setting where above ground installation is preferred. Typical applications include rock scape areas or any other environment where traditional in ground satellite/subwoofer combinations cannot be installed, or large open seating venues such as outdoor theater that demand detailed and dynamic coverage. The James Loudspeaker Omni129AT4 delivers superb full range performance from a décor-friendly compact enclosure.

The Omni129AT4 allows a single enclosure to do the same job of four James 42AT All-Terrain satellite speakers and a 12" down-firing subwoofer, delivering the same legendary James landscape performance in a more compact above ground unit.

The Omni129AT4 is constructed from 5052 marine aluminum enclosure and is available in 10 standard colors and unlimited custom finishes to allow seamless integration into all outdoor environments.

The units, assembled from the highest quality materials, comes standard with a 5 year outdoor warranty backed by one of the most respected loudspeaker manufacturers in the world. The Omni129AT4 can also be optionally configured as a full-range unit. For the 70V version order the Omni129AT470. Available in a wide variety of standard or custom severe powder coat color options.

### Optional M1000

1000W Subwoofer Amplifier w/DSP-2U  
Suggested for all James subwoofers
