

# Genuine Hayward® TurboCell®

SALT CELL

SANITIZATION

## IT'S ALL ABOUT TRUST. Why would you go with any other cell?

Trust genuine Hayward TurboCell over all the others. Take care of your pool – and yourself – with the higher-quality, longer-lasting, no-nonsense salt chlorination cell that swims circles around its imitators.

### Genuine Hayward TurboCells:

- #1 salt cell in the world
- In millions of backyards for the last 2 decades
- Best value and longer life
- Independently certified by the National Sanitation Foundation (NSF)
- Industry-best warranty
- Backed by one of the oldest and largest U.S. pool equipment companies
- Independent safety certification for use with Hayward salt chlorinators

### Beware of Imitations

Other salt chlorination cells may talk a good game, but what they don't say will cost you. With replacement cells such as CompuPool, you get what you pay for: lower quality, shorter life, non-certification.

#### Why CompuPool and other imitators offer poor value:

- CompuPool cells are not safety certified for use with Hayward salt chlorinators
- Through independent tests by the leading authority in electrolytic cells, CompuPool cells have been shown to have 75% less operating life than a genuine Hayward T-CELL-15

#### IMPORTANT SALT CELL FACTS

Cell	Pool Size Rating	Total Pounds of Free Chlorine Produced (as Trichlor)	Cost per Pound of Chlorine
Hayward T-CELL-3	15,000 gallons	210 lbs*	\$
Hayward T-CELL-9	25,000 gallons	385 lbs**	\$
Hayward T-CELL-15	40,000 gallons	580 lbs**	\$
CompuPool	40,000 gallons "claimed"	145 lbs*	\$\$\$\$
